COVERS THE BEAR RIVER VAL-
LEY LIKE A PHOSPHATE

Greeting: The Garland Globe has for the past eight years striven to encourage any progressive movement in this section of the country. Our non-partisan policy has made it possible for us to proceed along fearless lines, advocating only those matters and things that would be a boon to this community; on the other hand we have at all times endeavored to oppose and defeat any action or movement having behind it anything detrimental to the Bear River Valley.

You are invited to peruse the succeeding pages and judge for yourself from our latest efforts our sincerity and zeal as boosters of this valley. No expense has been spared to call the attention of the world to the many excellent and incomparable features of this vast territory, and we trust you will take with you one of these magnificently prepared papers and retain it in your possession as a souvenir.

The Garland Commercial Club joins us in bidding you all a hearty welcome and wishing you a Happy and Prosperous New Year.

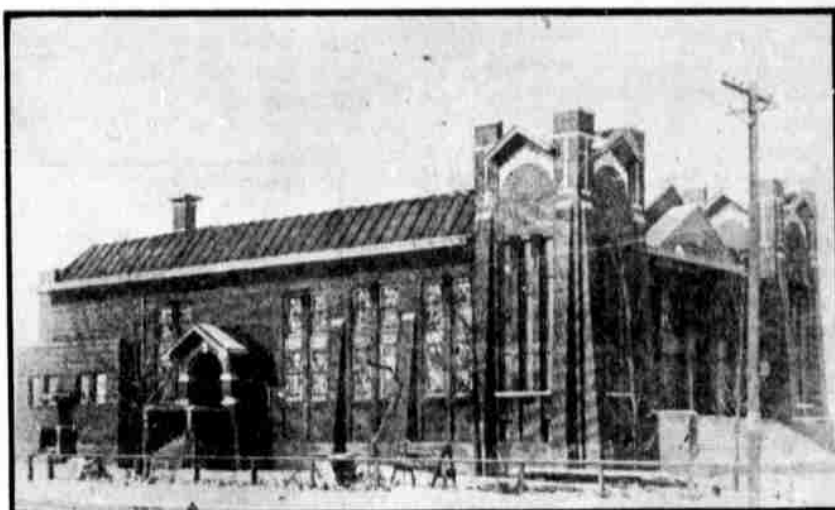

The hospitality of the people of Bear River Valley speaks for itself and can only be truly felt by your coming into our midst and for yourself judging from the reception you will receive. There is no hospitality on earth that can exceed the *reception awaiting you here.*

GARLAND PUBLIC SCHOOL

The citizens of this valley invite you to come into our midst and take up your lot with them, realizing that your presence will prove a benefit to them as well as yourself.

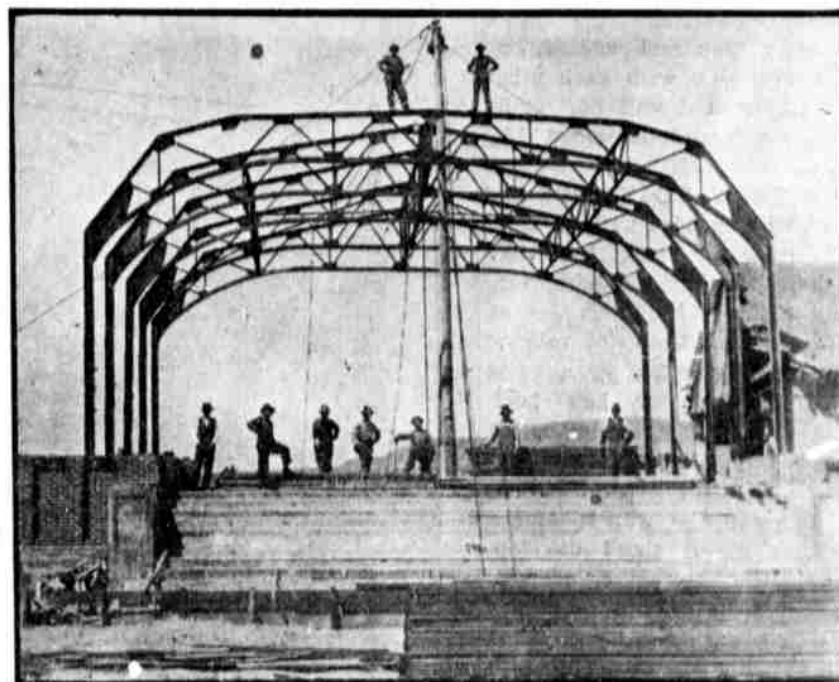

We hope our readers will continue to lend us their support in the future and unite with us in a greater effort to promote progress and development of one of the grandest, richest and most fertile lands in the Golden West.
